Sponsorship Dossier

Scientific Excellence

The SOMCEP actively contributes to the scientific development of aesthetic and plastic surgery in Morocco. Through its annual congress, masterclasses, and practical workshops, the society promotes continuous medical education and the exchange of expertise between national and international specialists. It serves as a leading academic platform dedicated to updating knowledge and elevating the scientific standards of the discipline.

SOMCEP

The SOMCEP is a Moroccan scientific society dedicated to the promotion and development of aesthetic and plastic surgery. It brings together plastic surgeons and specialized physicians who share a common vision based on scientific excellence, professional ethics, and the continuous improvement of clinical practices. Through its initiatives, the society contributes to structuring and strengthening the specialty at the national level.

Innovation & Development

The society encourages the integration of the latest techniques and technological advances into daily practice. In collaboration with academic and industry partners, SOMCEP contributes to the dissemination of medical innovations and the strengthening of professional standards, thereby supporting the continuous evolution of the specialty in Morocco.

Éthique & Rayonnement

SOMCEP places patient safety and adherence to best practices at the core of its priorities. The society promotes high standards of professional responsibility and contributes to the regional and international visibility of Moroccan expertise.

Dr Hatim Droussi

President of SOMCEP

Dr. Hatim Droussi is one of Morocco's leading plastic, reconstructive, and aesthetic surgeons, with many years of experience in the field.

Dr. Droussi is known for his meticulous approach and professional dedication. Practicing at La Renaissance Center, he specializes in reconstructive surgery, rhinoplasty, body contouring, and breast enhancement procedures. His reputation is built on subtle and refined techniques that elevate aesthetic surgery to an art of precision and harmony.

A highly qualified and experienced surgeon, he offers his patients a comprehensive range of both surgical and non-surgical procedures for men and women. With an artistic perspective on aesthetic surgery, he is committed to achieving natural and optimal results for every patient.

PRESIDENT'S MESSAGE

Dear Colleagues,
Dear Partners and Friends,

It is with great pride and enthusiasm that I invite you to attend the 8th Annual Meeting of the Moroccan Society of Aesthetic and Plastic Surgery (SOMCEP), which will take place from October 8 to 10, 2026, in Marrakech.

This congress represents far more than an annual scientific gathering. It is a space for exchange, knowledge transmission, and innovation, where surgical excellence meets international expertise. Our ambition is to offer a rich and rigorous program focused on major advances in structural rejuvenation, precision body contouring, and advanced aesthetic medicine, while emphasizing safety, ethics, and technical mastery.

Through conferences, workshops, live surgeries, symposiums, and interactive round tables, we aim to provide each participant with a high-level scientific experience that fosters the exchange of expertise and the continuous improvement of clinical practice. Marrakech, a city of culture and openness, will offer an exceptional setting for this unique moment of encounter and collaboration. Together, let us continue to promote and elevate Moroccan aesthetic and plastic surgery on both national and international stages.

I look forward to welcoming you in great numbers to make this 8th edition a scientific and human success.

With my warmest collegial regards.

Dr. Hatim Droussi
